PRINCIPAL'S MESSAGE:

I am extremely pleased with my second year at Lawton. You, the students, have made great strides academically. The staff has worked hard to program for the needs of all of you and as a result, there are many happy faces in the halls. Our population is up and next year we hope to have 300 students. You, the students, are getting the message out that Lawton is a good school.

To the grade nine students, I wish continued success as you grow socially, emotionally and academically toward the day when you must choose to pursue further education or enter the world of work. to the grade seven and eights students, I am looking forward to next year with the new programs coming on stream. I know that all of us, students and staff, will have a rewarding year in 1992-93.
